EXPERIENCE

AI Virtual Internship — June-July 2024
Skilldzire — *Online*

- Participated in an AI-focused internship covering core principles and real-world applications of Artificial Intelligence.
- Worked on projects involving machine learning algorithms, neural networks, and deep learning to solve complex problems.
- Developed practical skills in AI model building and deployment for business scenarios.

PROJECTS

Certificate Management System — November-December 2024

- Developed certificate management system for improved accessibility and reduced errors.
- Implemented organized storage for efficient certificate retrieval and review.
- **Tech Stack:** CSS, React.js, Node.js, Express.js

ChatBot AI — October-December 2024

- Developed an interactive chatbot using React and MongoDB for real-time user interaction.
- Integrated MongoDB for data storage, feedback collection, and analysis.
- **Tech Stack:** React.js, MongoDB, HTML, CSS

Credit Card Fraud Detection — May-June 2025

- Built a Credit Card Fraud Detection model using supervised learning and handled imbalanced data with SMOTE.
- Evaluated models like Logistic Regression and Random Forest using F1-score for accuracy.
- **Tech Stack:** Python, Scikit-learn, Pandas, Matplotlib, Imbalanced-learn

TECHNICAL SKILLS

Languages: Python, C, Java, SQL
Libraries: Pandas, NumPy, Matplotlib, Scikit-learn
Web Development: HTML, CSS, JavaScript, ReactJS, Flask, Node.js
Tools: VScode, GitHub, GitLab, DB Browser
Other Skills: tkinter

EDUCATION

Shri Vishnu Engineering College For Women — 2022 – 2026
B.Tech in Artificial Intelligence and Machine Learning — *CGPA: 8.53*

CERTIFICATIONS

Oracle Academy: DBMS, Java
Smart Interviews: DSA
Cognizant: AI Job Simulation

CONTRIBUTION TO COMMUNITY

Google Developer Students Club

CODING PROFILES

LeetCode | CodeChef | HackerRank
